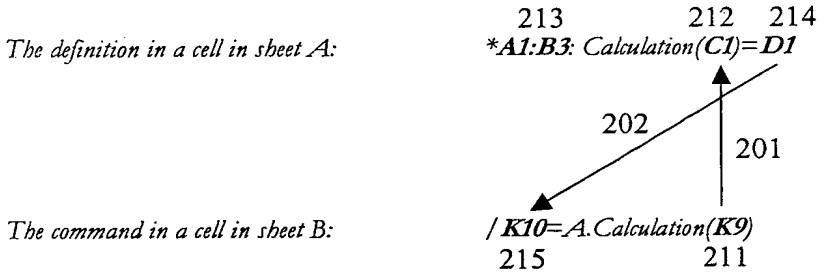
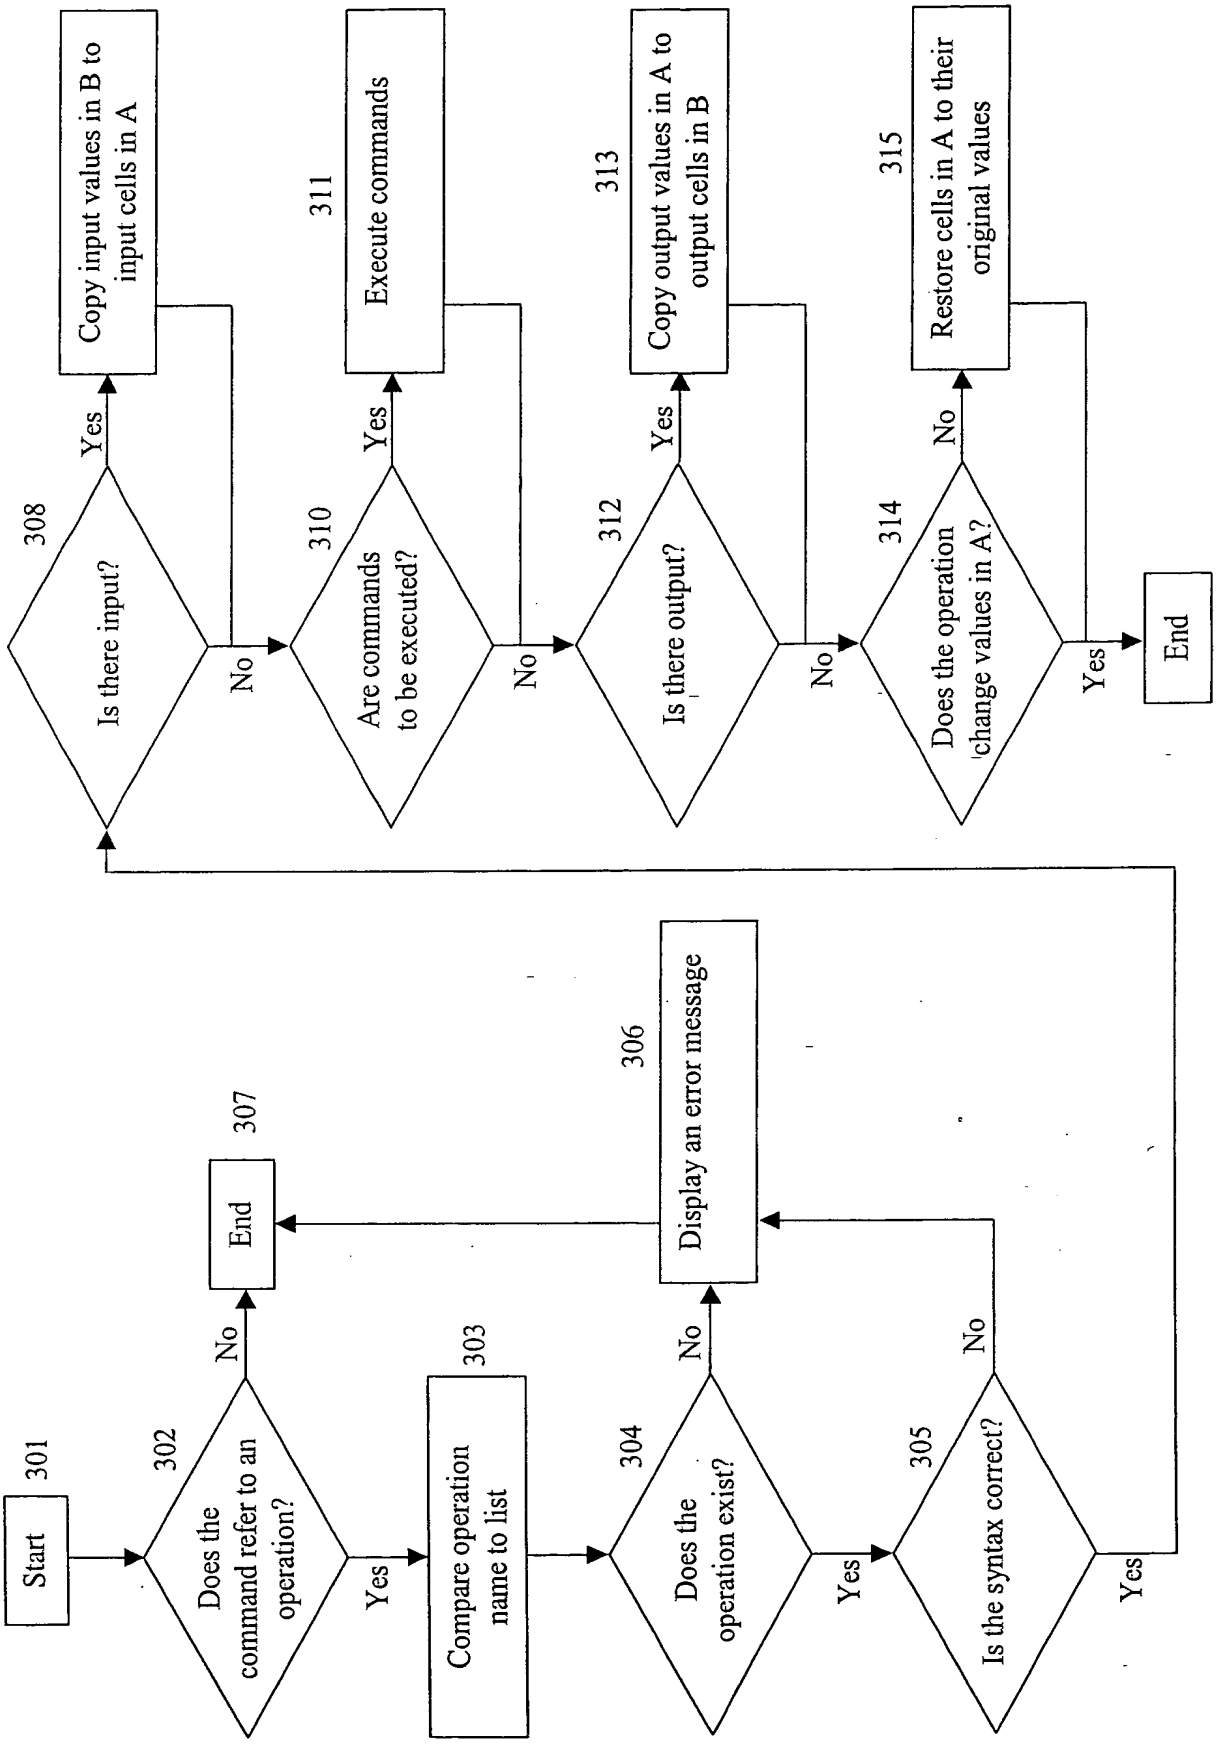
FIG. 1



213
212
214
The definition in a cell in sheet A:
*A1:B3: Calculation(C1)=D1
202
201
The command in a cell in sheet B:
/ K10=A.Calculation(K9)
215
211

FIG. 2



Start
301
Does the command refer to an operation?
302
No
End
307
Yes
Compare operation name to list
303
Does the operation exist?
304
No
Display an error message
306
Yes
Is the syntax correct?
305
No
Yes
Is there input?
308
Yes
Copy input values in B to input cells in A
No
Are commands to be executed?
310
Yes
Execute commands
311
No
Is there output?
312
Yes
Copy output values in A to output cells in B
313
No
Does the operation change values in A?
314
No
Restore cells in A to their original values
315
Yes
End
